Cloud Mining & Trade Bitcoin & Advanced Wallet

About Us

1. Who We Are?

Iminer company is the owner of the largest bitcoin farm in the Middle East. In recent years, in terms of profitability and income generation, iminer is in the first place for its users. In addition, iminer strive to establish strong platform in the scope of blockchain and cryptocurrency. We do believe that cryptocurrency has a bright future and we have decided to be a powerful member of it.

2. Where Is Your Mining Farm Location?

Our farms are located in China, Russia, Venezuela as well as Iran.

3. Could You Name Some of Your Achievements?

Here we are proud to present iminer-specific coin named imc in blockchain market. Besides, we accompany our loyal customers from Persian Gulf states, Europ as well as continental American countries.

4. What Is Your Goal?

Iminer is one of the most modern companies providing the service of mining cryptocurrency in the globe which offers its services without limitation worldwide. Our goal is to provide everyone with mining potentials easily by using the most recent technologies.

5. What Is The Mining Performance? Why Are You Not Mining Yourself?

We mine using the same hardware that we provide for the customer and also our capital is limited. We believe that the best method for gaining cryptocurrency is mining. However, we prefer not to put all our eggs in one basket.

Services

6. What Is Iminer Service?

It is a cloud mining service which makes cryptocurrency mining easy and fast online. Cloud mining is a mechanism to mine a cryptocurrency, such as bitcoin, using rented cloud computing power and without having to install and directly run the hardware and related software. Cloud mining firms allow people to open an account and remotely participate in the process of cryptocurrency mining for a basic cost, makes mining accessible to a wider number of people across the world.

7. How to Mine Cryptocurrency by Iminer?

It is done very easily and fast. Your miners could be seen on the dashboard page. Then your device starts mining without the need to install any

application or plug-in. You can log in to your account from different devices at the same time. You can buy a mining plan from your dashboard. When you buy a plan, your account mines automatically even when you are asleep.

The output of mining amount is calculated from the processed hash in the account in a 24-hour period and is deposited daily to your account.

Mining
